**Geography 130, 01F:
Development and Inequality
MWF 9:05-9:55am CH204
Dr. Drummond-Cole**

**What is development?
Why is it implemented?
How is it measured?
Where and how is it contested?**

Drawing on geographic theories and approaches, *Development and Inequality* provides an introduction to the conditions of global inequality, ideas and practices of development, and struggles for social, ecological, and economic justice.
