

Geography 414 – Climate Change

Spring 2024

T&Th 3:30 – 4:45PM / CH322

Dr. Erika Wise

ekwise@email.unc.edu

Why did climate change in the past?

How is recent climate change different?

What changes are expected in the future?

*This course will provide a “hands on” introduction to **climate change science** through a combination of lecture and computer-based activities.*
